

The H&K G3 SG/1 is a sniper enhanced variant of the G3 rifle that was made at the request of the now defunct Deutsche Bundeswehr (German Army). This is a rifle designed to cover all contingencies. Need to put a 7.62mm on target at 1000 yards and then have fully automatic fire at your disposal on the evac? Then this is your weapon of choice. Rifle comes with a standard silencer and collapsible bipod.

The G3 SG/1 retains all standard features of the G3A3, including rotary diopter iron sights and a combination flash suppressor/grenade launching spigot.

Type	Conceal.	Ammo	Mode	Damage	Weight	Avail.	Cost	Street Index
Sniper	NA	20(c)	SA/FA	95	5.54	12/9	2,400¥	3.5

* Rifle comes with a detachable Mag. III Image magnification Scope, bipod, and Sound Suppressor. The stock provides 2 points of recoil reduction on Semi-Automatic fire setting only. This rifle is not collapsible.
