

TAURUS PT-945 MONEY SHOT

A full size, full power .45 ACP pistol built to last and be relied on, the standard PT-945 is one of Taurus' most popular pistols. Adorned with gold accents and other special features including stainless steel, gold tone controls, and mother of pearl composite hand grips, this pistol is not just a collector's dream. This is a fully functional handgun that will get down and dirty when it has to.

The three position safety for carrying cocked and locked is ambidextrous! You'll love the way the action cycles tightly, magazines freely slide home like a velvet glove, and the smooth trigger pulls to a crisp let off. Taurus Pistols also carry the Taurus Security System for that added peace of mind. Who says every piece of equipment has to look Spartan? Don't just tell them you mean business, tell them you are business!

Type	Conceal.	Ammo	Mode	Damage	Weight	Avail.	Cost	Street Index
Pistol	5	8(c)	SA	9M	2.5	8/24	2,500¥	3.0

* Taurus PT-945 standard .45 ACP pistol has ability to be upgraded to internal SG Link II circuitry for 1,100¥. Gunsmiths who perform work on a Money Shot pistol will most likely charge 3-4 times that for installs.

>>>>[Okay, so I have pistol envy. I would love to get one of these. It's too bad that collectors never let go of them, and anyone who does use them always has some lackey around snapping it up when they 'loose' it.]<<<<<

>>>>[Keep looking Rocco, I've seen a couple of these in Tyo, you just have to keep your eyes and wallet open.]<<<<<
 - Spence <15:34:12 - 7/31/53>

>>>>[Yeah, I've got a run coming up tonight, I'll ask around to see what I can find, though I've got a feeling this run is going to be a cake walk.]<<<<<
